Letters from Cadiz adviſe, that the Squadron deſigned for the Levant, conſiſting of 12 Men of War and four Frigates, will be ready to put to Sea the Middle of this Month. This Court having lately ſent to forbid Sig. Aldobrandi, the Pope's Nuncio, to enter Spain, did at the ſame Time diſpatch a Courier to the Pope to acquaint him with the Reaſons of that Prohibition: That Courier is come back, and the Pope having complied with ſome Demands of this Court, Notice is ſent to the Nuncio, who ſtays on the Frontier, that he may now come; and he is expected here in a few Days.

Berne, June 12. The Chancellor of this State is returned from Buren, whither he was ſent lately on the Part of this Canton to confer with a Miniſter of the Biſhop of Porentru upon the Affair of Neuveville, which has been ſo long in Diſpute between this State and the Biſhop, and that Matter is now in a fair Way of Accommodation, that Prelate having given up moſt of the Points he has hitherto inſiſted upon. The French Ambaſſadour at Soleurre has paid to each Canton one Year's Arrear of Penſion; and the Deputy of this Canton, which went thither ſome Days ago to receive the Money, is returned. Letters from Savoy give an Account of the Arrival of the King of Sicily and the Prince of Piemont at Chambery, and that the Queen was expected there as ſoon as her Health would permit: That the King upon his Arrival had made ſeveral Alterations, that he had ſuppreſſed the Chamber of Accompts, and had appointed Intendants, as in France, through all the Diſtricts of Savoy.

Vienna, June 9. The Imperial Army in Hungary has not yet made any Motion: But the laſt Letters from Prince Eugene have put us in Expectation that he will very ſoon attempt to paſs the Danube, which muſt neceſſarily be done before the Siege of Belgrade or any other Enterprize can be formed. Prince Maximilian, third Son of the Landgrave of Heſſe-Caſſel, arrived here laſt Night; but the Regiment of 2300 Men which his Father ſends under his Command to ſerve in Hungary, will not be there till the 20th Inſtant: This Prince is to be made a Lieutenant General.

In theſe the Prince can carry over a Body of 16000 Foot, with which he propoſes to take Poſt under Cover of the Cannon of the Ships of War, and to make a Bridge for the Paſſage of the whole Army, which 'tis ſaid conſiſts of 50000 Horſe and Dragoons, and 70000 Foot, beſides the Hungarians, Raſcians and Wallachians, who together make above 20000 Men. The Marquis has alſo received a Letter of the 14th from Prince Kourakin at Paris,
